

Capital Car Parks

International Patent Application Number PCT/AU2014/000723

Rapid Installation Parking Stations

RETROFIT EXISTING CAR PARKS: Designed for retrofitting to an existing car park with minor disruption to existing parking operations.

NEW CAR PARKS: Cost effective for new single or multi level parking solutions.

TEMPORARY PARKING SOLUTIONS: Fully relocatable and suitable for temporary parking solutions during construction of major infrastructure projects.

RAPID INSTALLATION: A 2 to 3 weeks installation period (100 bays).

COLUMN FREE PARKING AREA: No columns between parking bays creates functional space.

IMPROVED PROTECTION AND COMFORT: Undercover parking improves protection and comfort for patrons.

HIGHER PARKING FEES: Fees can be increased due to improved quality of parking.

ACCELERATED CAPITAL DEPRECIATION: Can be classified as a "temporary" structure eligible for 10% pa depreciation.

RESIDUAL ASSET VALUE: It's a relocatable structure and can be relocated or sold as an asset at the conclusion of project life.

NO STACKING/LOW OPERATING COST: It's a conventional parking solution without car lifts and mechanical parts and associated maintenance and operating costs.

COMPLETE DESIGN AND CONSTRUCT SOLUTION: Installation cost includes planning and engineering costs.
